EXPERIENCE

Software Engineer

Chaizer

Aug 2024 - Present

Amman, Jordan

- Worked as a Full Stack Web and Mobile Developer, utilizing Ruby on Rails for backend, React for web frontend, and React Native for mobile applications.
- Designed and implemented efficient RESTful APIs to seamlessly integrate multiple in-house projects and ensure robust communication between systems.
- Developed and optimized complex algorithms to improve and automate operational workflows.
- Wrote and maintained comprehensive test cases and specs, significantly improving the project's test coverage and ensuring code reliability.
- Contributed to scalable architecture and feature enhancements, improving user experience and system performance in a high-demand environment.
- Played an integral role in an agile team, delivering high-impact features and solving challenging technical problems within tight deadlines.

Trainee - Full Stack Developer

Orange Coding School

Mar 2023 - Jun 2023

Amman, Jordan

- Participated in a mentorship program for university students and developed a full stack medical website using Laravel and JavaScript. The website leveraged Infermedica API for AI-powered symptom analysis, allowing users to perform symptom checks and receive diagnosis suggestions. The website also offered other features such as booking appointments with doctors, viewing medical records, and accessing health tips.

Trainee - Full Stack Developer

Edraak

Jan 2022 - Jul 2022

Amman, Jordan

- Developed full-stack web applications using PHP and Laravel.
- Worked on multiple projects to gain hands-on experience in web development and database management.
- Built an e-commerce website as the final project, showcasing my full-stack development skills.
